Statistics Request Overall Description

On February 5, 2024, Research and Statistics received a request from a member of the public for an aggregate report of felony charges disposed statewide for calendar year (CY) 2014 through calendar year 2023. It was also requested that demographic information be integrated into the report.

The CourtNet database, which provides a summary of cases statewide, was queried for felony charges disposed statewide from 1/1/2014 to 12/31/2023 along with the age, race, ethnicity, and gender of defendants associated with those charges.

Statistical Tables (21_RSX6000 & 24_RSX6013)

Statistical Table 24_RSX6013: Provides 20 pages of data aggregations which display counts of felony charges disposed statewide from CY 2014 through CY 2023. Additionally, counts of distinct cases containing those charges are provided.

Pages 1-2: Provide three cross-tabulations. Each of the cross-tabulations covers a demographic type (age, race, or gender), and displays counts of felony charges disposed by jurisdiction, demographic group, and disposition year. Additionally, a count of distinct cases which contain those charges is provided.

Pages 3-10: Provide a cross-tabulation covering age. The cross-tabulation presents counts of felony charges disposed along with counts of distinct cases which contain the charges. The counts are grouped by jurisdiction, disposition group, defendant age bracket, and disposition year as described below.

Pages 11-16: Provide a cross-tabulation covering race. The cross-tabulation presents counts of felony charges disposed along with counts of distinct cases which contain the charges. The counts are grouped by jurisdiction, disposition group, defendant race, and disposition year as described below.

Statistical Tables (21_RSX6000 & 24_RSX6013)

Page 17-20: Provide a cross-tabulation covering gender. The cross-tabulation presents counts of felony charges disposed along with counts of distinct cases which contain the charges. The counts are grouped by jurisdiction, disposition group, defendant gender, and disposition year as described below.

Statistical Table 21_RSX6000: Provides a list of base felony charges queried for the report sorted by AOC Offense Category, UOR Code, UOR Description, and charge level and class. Note that this does not include enhanced charges where the base charge would be a misdemeanor. These enhanced charges are, however, counted in the data aggregation.

Statistical Analysis Considerations:

- Statistics represent a snapshot in time, as of the date the data was queried: 3/4/2024.
- A case may consist of one or multiple charges. The report's count of cases represents a distinct count of case numbers, regardless of the number of charges associated with the case.
- Counts of cases do not necessarily represent counts of unique individuals as a defendant may appear in multiple cases.
- Charges consist of all original and amended charges within a case counted separately.
- Many but not all charges heard in Circuit Court were previously heard in District Court and indicted by grand jury. As such, the sum of charges in District and Circuit Court will count some indicted charges twice and totals from the two jurisdictions are presented separately.
- A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping. Due to the case counting method described, subtotals of case counts will add up to a number greater than the actual overall total. The total count of cases and charges is found in the bottom right corner of each table.

RESEARCH AND STATISTICS DISCLAIMER

Information received from KYCourts/CourtNet is subject to change(s), reprogramming, modification(s) of format and availability at the direction of the Administrative Office of the Courts (AOC) and may not at any particular moment reflect the true status of court cases due to ordinary limitation(s), delay(s) or error(s) in the system's operation. The KYCourts/CourtNet database is not a real-time system. All datasets are a snapshot of case data at the time a query is run. Case counts are not counts of individuals as some persons may have multiple cases.

The AOC disclaims any warranties as to the validity of the information obtained from KYCourts/CourtNet. The recipient is solely responsible for verifying information received from KYCourts/CourtNet through the cross-referencing of official court records. The AOC shall not be liable to the recipient, or to any third party using the system or information obtained therefrom, for any damages whatsoever arising out of the use of KYCourts/CourtNet.

RESEARCH AND STATISTICS UOR CODE DISCLAIMER

The Kentucky State Police (KSP) assigns the Kentucky Uniform Crime Reporting Codes (UOR Codes) to criminal offenses in the Commonwealth of Kentucky. The KSP official list of UOR Codes by KRS number and descriptor can be obtained at the KSP's website at www.kentuckystatepolice.org.

The AOC assigns and maintains codes that are used within the Court of Justice Case Management System for statistical and reporting purposes. These codes are used to identify local and city ordinances, as well as codes for general administrative purposes. The AOC official list of UOR Codes with KRS number and descriptor can be obtained at the Court of Justice Website at <https://www.kycourts.gov/AOC/Information-and-Technology/Analytics>. The AOC UOR Code Listing is for informational purposes only and the information is subject to change, reprogramming, modifications of format, and availability at the direction of the Administrative Office of the Courts (AOC).

A query for data based on specified charges will include each UOR code specified and possible supplemental codes. Supplemental codes (or "ASCF" codes) to any UOR code include: 1) attempt, 2) solicitation, 3) conspiracy, 4) facilitation, 5) complicity, and 6) enhancement. In total, UOR codes contain seven digits. The first six digits are specific to that charge. The seventh digit indicates if there is a supplemental code. A "0" as the seventh digit means that is the primary UOR code and it does not have a supplemental code. If there are supplemental codes, the "0" will change to a 1, 2, 3, 4, 5, or 6 (the numbering corresponds to the list above). An enhancement does not exist on all UOR codes. When a supplemental code does not appear within a dataset, charge(s) did not occur during this period. The presence of "*obs" within the description of a UOR code indicates an obsolete UOR code. However, the code is still present within the KYCourts/CourtNet database and may still be utilized. Not every UOR code included in the query will have charges associated with it in each calendar year examined. Some cases may contain multiple charges; therefore, charge counts may exceed case counts. The number of cases cannot be inferred as the number of individuals as multiple cases may have the same defendant.

The AOC disclaims and makes no warranty, express or implied, nor assumes any legal liability or responsibility, for the validity, accuracy, correctness, or completeness of any information that is

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

* Data provided from the CourtNet database.

* Counts of cases do not represent counts of individual defendants as the same defendant may appear in multiple cases.

* A case may have charges with differing dispositions, which results in that case appearing under the disposition group row for each disposition group within the case. A case may also have charges with differing disposition years, which results in that case appearing in multiple disposition year columns. Each subtotal displays the quantity of distinct cases and charges for its grouping, causing subtotals of case counts to add up to a number greater than the actual overall total.
