<b>Organization:</b> WDRB	<b>Due Date:</b> January 31, 2022

### Statistics Request Overall Description

On January 10, 2023, Jason Riley, a report with WDRB, requested from Research and Statistics the rate of juvenile delinquency cases for the calendar years of 2013 through 2022, statewide and by county.

- CDW complaints filed.
- Delinquency cases filed by charge level F/M
- Delinquency cases disposed by charge level F/M disposed and how many found delinquent
- Youthful Offender cases filed by charge level

CDW, which provides a summary of complaints, was queried for felony and misdemeanor charges within complaints filed, January 1, 2013 through December 31, 2022, statewide.

CourtNet, which provides a summary of cases, was queried for felony and misdemeanor charges within juvenile delinquency cases filed and cases disposed from January 1, 2013 to December 31, 2022. An additional query was made for the felony and misdemeanor charges within circuit criminal youthful offender\* cases filed during that same timeframe.

\*A defendant in a Circuit Criminal case is determined to be less than 18 years old as of the filing date of the earliest charge in the case. The charge filing date is sometimes entered to reflect the filing of the original charge, but other times may be entered as the date of the indictment or data entry. As such, some minors may turn 18 before the indictment or data entry date for these charges, and any such minors are not captured in this data set. No other datapoints are available for the identification of youthful offender indictments.

#### Statistical Analysis Considerations (CDW):

- The data presented is a snapshot in time as of report run date.
- A complaint may have multiple charges and a youth may have multiple complaints.
- Excludes added offenses.
- In-order-to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer complaints would have been reported. Blank data points should be considered to reflect “zero to five cases”. Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more complaints themselves.

#### Statistical Analysis Considerations:

- The data presented is a snapshot in time as of report run date.
- A case may consist of one or multiple charges. The report’s count of cases represents a distinct count of case numbers, regardless of the number of charges associated with the case.
- Counts of cases do not represent counts of unique individuals.
- Excludes added offenses.

#### RESEARCH AND STATISTICS UOR CODE DISCLAIMER

The Kentucky State Police (KSP) assigns the Kentucky Uniform Crime Reporting Codes (UOR Codes) to criminal offenses in the Commonwealth of Kentucky. The KSP official list of UOR Codes by KRS number and descriptor can be obtained at the KSP's website at [www.kentuckystatepolice.org](http://www.kentuckystatepolice.org).

The AOC assigns and maintains codes that are used within the Court of Justice Case Management System for statistical and reporting purposes. ### Disclaimer Associated with KCOJ/AOC Database(s) and Element(s)

UOR Code Listing is for informational purposes only and the information is subject to change, reprogramming, modifications of format, and availability at the direction of the Administrative Office of the Courts (AOC).

A query for data based on specified charges will include each UOR code specified and possible supplemental codes. Supplemental codes (or "ASCF" codes) to any UOR code include: 1) attempt, 2) solicitation, 3) conspiracy, 4) facilitation, 5) complicity, and 6) enhancement. In total, UOR codes contain seven digits. The first six digits are specific to that charge. The seventh digit indicates if there is a supplemental code. A "0" as the seventh digit means that is the primary UOR code and it does not have a supplemental code. If there are supplemental codes, the "0" will change to a 1, 2, 3, 4, 5, or 6 (the numbering corresponds to the list above). An enhancement does not exist on all UOR codes. When a supplemental code does not appear within a dataset, charge(s) did not occur during this period. The presence of "\*obs" within the description of a UOR code indicates an obsolete UOR code. However, the code is still present within the KYCourts/CourtNet database and may still be utilized. Not every UOR code included in the query will have charges associated with it in each calendar year examined. Some cases may contain multiple charges; therefore, charge counts may exceed case counts. The number of cases cannot be inferred as the number of individuals as multiple cases may have the same defendant.

The AOC disclaims and makes no warranty, express or implied, nor assumes any legal liability or responsibility, for the validity, accuracy, correctness, or completeness of any information that is available and/or obtained through this listing. The recipient is solely responsible for verifying the accuracy of the information received from the official owner of the UOR Codes, the KSP. Furthermore, the AOC shall not be liable to the recipient, the recipient's heirs and assigns, next of kin or to any third party, for any and all claims, demands, losses or damages arising from the usage of this list and/or information contained therein.

\* Data provided from the Court Designated Workers Case Management System.

\* Counts are of distinct complaints. A single juvenile may have multiple complaints, and a single complaint may contain one or more charges.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* Data provided from the Court Designated Workers Case Management System.

\* Counts are of distinct complaints. A single juvenile may have multiple complaints, and a single complaint may contain one or more charges.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* Data provided from the Court Designated Workers Case Management System.

\* Counts are of distinct complaints. A single juvenile may have multiple complaints, and a single complaint may contain one or more charges.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* Data provided from the Court Designated Workers Case Management System.

\* Counts are of distinct complaints. A single juvenile may have multiple complaints, and a single complaint may contain one or more charges.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* Counts of cases should not be considered counts of individuals, as some individuals could be involved with multiple filed cases.

\* Added charges and charges disposed with an amended disposition type have been excluded, if amended to another offense and the new charge is disposed, that charge is included will be reflected within the CY.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* Counts of cases should not be considered counts of individuals, as some individuals could be involved with multiple filed cases.

\* Added charges and charges disposed with an amended disposition type have been excluded, if amended to another offense and the new charge is disposed, that charge is included will be reflected within the CY.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". \* Counts of cases should not be considered counts of individuals, as some individuals could be involved with multiple filed cases.

\* Added charges and charges disposed with an amended disposition type have been excluded, if amended to another offense and the new charge is disposed, that charge is included will be reflected within the CY.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* Counts of cases should not be considered counts of individuals, as some individuals could be involved with multiple filed cases.

\* Added charges and charges disposed with an amended disposition type have been excluded, if amended to another offense and the new charge is disposed, that charge is included will be reflected within the CY.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.

\* Counts of cases should not be considered counts of individuals, as some individuals could be involved with multiple filed cases.

\* Added charges and charges disposed with an amended disposition type have been excluded, if amended to another offense and the new charge is disposed, that charge is included will be reflected within the CY.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". \* Counts of cases should not be considered counts of individuals, as some individuals could be involved with multiple filed cases.

\* Added charges and charges disposed with an amended disposition type have been excluded, if amended to another offense and the new charge is disposed, that charge is included will be reflected within the CY.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". \* Counts of cases should not be considered counts of individuals, as some individuals could be involved with multiple filed cases.

\* Added charges and charges disposed with an amended disposition type have been excluded, if amended to another offense and the new charge is disposed, that charge is included will be reflected within the CY.

\* In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer cases would have been reported. Blank data points should be considered to reflect "zero to five cases". Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more cases themselves.
