## DUI CHARGES WITHIN CASES FILED AND CHARGES DISPOSED CY 2022-2023 STATEWIDE

---

May 9, 2024

By  
Samuel Christopher (*Data Analyst*)  
Lyn Guarnieri (*Research and Statistics Team Lead*)  
Christopher Garrison (*Data Analysis Specialist*)

### Statistics Request Overall Description

On April 24, 2024, Research and Statistics received a request for an aggregate report of DUI charges filed or disposed statewide for calendar years (CY) 2022 and 2023.

The CourtNet database, which provides a summary of cases statewide, was queried for charges with an AOC Offense Group of DUI that were within cases filed statewide from 1/1/2022 to 12/31/2023 and charges disposed statewide from 1/1/2022 to 12/31/2023.

### Statistical Tables (24\_RS6029)

**Statistical Table 24\_RS6029:** Provides 38 pages of aggregations that display counts of DUI charges within cases filed between 1/1/2022 and 12/31/2023 and DUI charges disposed between 1/1/2022 and 12/31/2023.

**Page 1:** Provides a cross-tabulation that displays counts of DUI charges within cases filed statewide grouped by jurisdiction and case filing year. Additionally, a count of distinct cases containing those charges is provided.

**Page 2:** Provides a cross-tabulation that displays counts of DUI charges disposed statewide grouped by jurisdiction and charge disposition year. Additionally, a count of distinct cases containing those charges is provided.

**Pages 3-8:** Provide the same information found on page 1 but further grouped by county.

**Pages 9-27:** Provide the same information found on page 2 but further grouped by county.

**Pages 28-38:** Provide a list of UOR codes queried for the report grouped by AOC Offense Category.

# DUI CHARGES WITHIN CASES FILED AND CHARGES DISPOSED CY 2022-2023 STATEWIDE

## Statistical Tables (24\_RS6029)

### Statistical Analysis Considerations:

- Statistics represent a snapshot in time, as of the date the data was queried: 5/9/2024.
- A case may consist of one or multiple charges. The report's count of cases represents a distinct count of case numbers, regardless of the number of charges associated with the case.
- Counts of cases do not necessarily represent counts of unique individuals as a defendant may appear in multiple cases.
- Charges consist of all original and amended charges within a case counted separately.
- A case may consist of charges which fall under different groups within a table. In this situation, a case is added to the case count for each group which applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

## Data Variables Requested

| Database | Data Variable            | Description   |
|----------|--------------------------|---|
|          | Case Filing Date         | The date each case was filed. Case Filing Date is reported by Calendar Year. The Calendar Year is January 1 through December 31. This report is limited to charges with a case filing date or disposition date within calendar years 2022 or 2023.  |
|          | Charge Disposition Date  | The date each charge was disposed. Charge Disposition Date is reported by Calendar Year. This report is limited to charges with a case filing date or disposition date within calendar years 2022 or 2023.  |
|          | County                   | The county in which the case containing a charge was filed.   |
|          | Jurisdiction             | The jurisdiction in which each case was filed.  |
|          | Charge Disposition Group | <p>Charge dispositions are grouped into the following categories:</p> <p><b>Acquitted</b></p> <ul style="list-style-type: none"> <li>• ACQ – Acquitted</li> <li>• NG – Not Guilty</li> </ul> <p><b>Amended</b></p> <ul style="list-style-type: none"> <li>• AD – Amended Down</li> <li>• AGJ – Amended Down by Grand Jury</li> <li>• AMEND – Amended</li> <li>• AU – Amended Up</li> <li>• AUGJ – Amended Up by Grand Jury</li> </ul> <p><b>Convicted</b></p> <ul style="list-style-type: none"> <li>• G – Guilty</li> <li>• GM – Guilty - Multiple Counts</li> <li>• GSS – Guilty - Sealed Sentence</li> <li>• PRPD – Prepaid</li> </ul> <p><b>Dismissed</b></p> |

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

Statistical Analysis Considerations

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.

**Statistical Analysis Considerations**

\* Data provided from the CourtNet Database.

\* Counts of cases do not represent counts of individual defendants, as the same defendant may appear in multiple cases.

\* A case may consist of charges that fall into different groups within a table. In this situation, a case is added to the case count for each group that applies to at least one charge within a case. Each subtotal displays the quantity of distinct cases and charges for that group, causing subtotals of case counts to add up to a number greater than the actual overall total.
