Statistics Request Overall Description

On February 27, 2024, Research and Statistics received a request from the Campbell County Attorney's Office for a report of recidivism statistics of complaints filed between Calendar Years (CY) 2014 and 2022 that include a breakdown of the Living Arrangement of the Youth identified in each complaint.

The AOC Court Designated Workers Case Management System (CDWCMS), the case management and information system used by Court Designated Workers, was queried for all complaints filed between January 1, 2014, through December 31, 2022. The original complaints were checked to see if any subsequent complaint was filed within 365 days of the original complaint filing date.

Please note that the statistics provided herein are based on data collected from only the CDWCMS database which captures offense data for individuals under the age of 18. The statistics provided do not include any offenses that an individual in this sample may have been charged with as an adult after participating in diversion.

Statistical Analysis Considerations

- The statistical information presented is a snapshot in time as of report run date.
- Counts of complaints do not equal a count of youth, since a youth may have multiple complaints.

Statistical Reports (24_CDW7008, 24_CDW7009)

- In order to protect the identities of individuals associated with confidential records, reports conceal any instances in which five (5) or fewer Complaints would have been reported. Blank data points should be considered to reflect *zero to five Complaints*. Any Complaints hidden in this manner are included in totals and subtotals, provided that these totals and subtotals include 6 or more Complaints.
