COMPLAINTS WITH MOST RECENT PRELIMINARY INQUIRY ACTION 2/3/2019 – 6/2/2022 STATEWIDE

June 2, 2022

Statistics Request Overall Description

On May 24, 2022, Family and Juvenile Services requested from Research and Statistics a report containing the number of preliminary inquiries conducted since February 3, 2019, with disability information broken down by Race/Ethnicity.

AOC CDWCMS, the case management and information system used by AOC Court Designated Workers, was queried for complaints conducted after February 3, 2019, in which the preliminary inquiry interview proceeded past the third interview screen (*Child's Rights*) and was completed on:
- The tenth interview screen (*Submit* – indicating there was no Diversion Agreement);
- The fourteenth interview screen (*Home Information* – if there was a Diversion Agreement and the interview was conducted prior to the February 1, 2019, implementation of the Preliminary Inquiry web application); or
- The fifteenth interview screen (*Personal Goals* – if there was a Diversion Agreement and the interview was conducted on or after February 1, 2019).

Statistical Tables (20_CDW7003)

Report 20_CDW7003 displays the requested data for complaints with a preliminary inquiry conducted after February 3, 2019, in a horizontal bar graph and in cross-tabulation format detailed below:

Page 1: Provides two horizontal bar graphs: The graph on the top of the page displays all complaints with the proportion of complaints with reported disabilities by Race/Ethnicity. The graph on the bottom of the page displays the complaints with reported disabilities by disability type.

Page 2: Provides a horizontal bar graph with a separate color representing each race/ethnicity sorted by each reported disability type. A separate bar graph on the bottom of the page provides the complaints with no disabilities by race/ethnicity.

Page 3: Provides a cross-tabulation of complaints by reported disability type, including counts of youth and complaints**,** and is cross-tabulated by Race/Ethnicity.

Statistical Analysis Considerations:
- The data presented is a snapshot in time, as of the date of the query, June 2, 2022.
- Complaint counts do not equal a count of youth since a youth may have multiple complaints.
- A single referral (complaint) may contain one or more charges.

Data Variables Requested

Database	Data Variable	Description
CDWCMS	Disability Type	Indicates that the youth selected one or more of the following disability types to the question *Do you have a disability?* during the health information portion of the Preliminary Inquiry. • Learning Disability • Mental Disability • Medical Disability • Intellectual Disability • Vision Disability • Developmental Disability • Other Disability Instances in which the youth indicated that more than 1 disability type applied are placed into the category • More than 1 Disability Indicated
	Race/Ethnicity	The race and ethnicity of the youth, reported in the following categories: • Black: African American Non-Hispanic • Hispanic: Any race with Hispanic ethnicity indicated • White: Caucasian Non-Hispanic • Other: Non-Hispanic Asian, American Indian, or any race indicated as "Other" • Unknown: any missing entries.
	Preliminary Inquiry Date	The date in which the preliminary inquiry was conducted.
	Youth	A count of unique juveniles included in the referrals (complaints) reported.
	Complaints	A count of complaints (referrals) within each category. One juvenile may have multiple referrals in the reported time frame.
