**Statistics Request Overall Description**

On October 4, 2023, Research and Statistics received a request for a report comparing recidivism rates for complaints filed between Fiscal Years (FY) 2013 and 2022 that include a violent offense per KRS 532.200. A supplemental list of offenses is included with this report.

The AOC Court Designated Workers Case Management System (CDWCMS), the case management and information system used by Court Designated Workers, was queried for all complaints filed between July 1, 2012 through June 30, 2022, having at least 1 charge identified as violent by KRS 532.200. The original complaints were checked to see if any subsequent complaint was filed within 365 days of the original complaint filing date.

In some instances, a Youth may have multiple subsequent complaints filed after the original complaint. For each of these multiple subsequent complaints filed, the complaint filing date was compared to the previous complaint’s filing date to check for the recidivism criteria of having no more than 365 days difference between the filing dates.

Complaint Type	Juv ID	Ref ID	Complaint Filing Date	Date Difference	Within 365 Days of Previous Complaint?
Original	1	100	5/6/2013	N/A	N/A
Subsequent	1	243	7/1/2013	56	Yes
Subsequent	1	388	12/21/2013	173	Yes
Subsequent	1	999	6/9/2016	901	No

**Please note that the statistics provided herein are based on data collected from only the CDWCMS database which captures offense data for individuals under the age of 18. The statistics provided do not include any offenses that an individual in this sample may have been charged with as an adult after participating in diversion.**

**Statistical Report 22\_CDW7001**

The report consists of three (3) pages as described below:

**Page 1:** This page displays the statewide recidivism statistics as a horizontal line graph, with a separate color representing whether the youth had a subsequent offense within one (1) year of the original complaint filing date.

**Page 2:** This page displays the statewide recidivism statistics as a horizontal line graph, with a separate color representing the intake action of the original complaint and whether the youth had a subsequent offense filed within one (1) year of the original complaint filing date.

**Page 3:** This page contains two (2) tables, providing the number of Complaints, distinct count of Youth and Youth Recidivism rate.

- The top table presents the same information as the Page 1 chart and is grouped by Subsequent Offense Status and sorted by FY of the complaint filing date.
- The bottom table presents the same information as the Page 2 chart and is grouped by Intake Action and Subsequent Offense Status and sorted by FY of the complaint filing date.

**Page 4:** This page displays the statewide recidivism statistics as a horizontal line graph, with a separate color representing the Subsequent Violent Offense Status indicating whether the youth had a subsequent offense filed within 1 year of the original complaint filing date and if so, whether that subsequent offense was classified under KRS 532.200 as a Violent Offense. The thickness of the horizontal line corresponds to the number of complaints filed for that fiscal year, along with the percent of those complaints that met the criteria for recidivism.

**Page 5:** This page displays the statewide recidivism statistics as a horizontal line graph, with a separate color representing the original complaint Intake Action and the Subsequent Violent Offense Status indicating whether the youth had a subsequent offense filed within 1 year of the original complaint filing date and if so, whether that subsequent offense was classified under KRS 532.200 as a Violent Offense. The thickness of the horizontal line corresponds to the number of complaints filed for that fiscal year, along with the percent of those complaints that met the criteria for recidivism.

**Page 6:** This page contains a single table presenting the same information as the Page 4 chart and is grouped by Subsequent Violent Offense Status and sorted by FY of the complaint filing date.

**Page 7:** This page contains a single table presenting the same information as the Page 5 chart and is grouped by Intake Action and Subsequent Violent Offense Status and sorted by FY of the complaint filing date.

**Pages 8-9:** These pages display the AOC Offense Category of the original complaint grouped by AOC Offense Category and whether youth associated with the original complaint filed had a subsequent

complaint filed within 1 year of the original complaint filing date, and is sorted by the FY of the original complaint filing date.

Counts are provided for Youth and % of Youth.

**Page 10:** This page displays the statewide recidivism statistics as a table grouped by the AOC Offense Group of the subsequent complaint and sorted by the FY of the original complaint filing date.

Counts are provided for Youth and % of Youth.

**Statistical Analysis Considerations**

- The statistical information presented is a snapshot in time as of report run date.
- Counts of complaints do not equal a count of youth, since a youth may have multiple complaints.
