Statistical Analysis Considerations

- The statistical information presented is a snapshot in time as of April 1, 2022.
- Counts of complaints do not equal a count of youth, since a youth may have multiple complaints.
- To protect the identities of individuals associated with confidential records, reports conceal any instances in which five or fewer complaints would have been reported. Blank data points should be considered to reflect “zero to five cases”. Any cases hidden in this manner are included in totals or subtotals provided that these totals or subtotals include six or more complaints themselves.
